WORK EXPERIENCE

Associate Solutions Engineer

MiQ Digital

September 2025 – Current

London, United Kingdom

- Engineered and delivered custom analytics and data science solutions for top-tier advertisers, leveraging Python, SQL, Tableau, and cloud platforms to transform complex business requirements into actionable technical deliverables.
- Managed end-to-end client projects. Scoping needs, developing tailored plans, and coordinating cross-functional global teams to ensure timely, high-quality solution deployment and measurable impact.
- Designed, built, and documented scalable ETL pipelines and automated reporting dashboards, significantly reducing turnaround time and enhancing clarity of performance insights for clients.
- Led advanced troubleshooting for analytics workflows, proactively resolving data integrity issues and ensuring robust, seamless product performance across multiple client accounts.
- Drove innovation by conceptualizing and piloting proof-of-concept analytics tools, aligning evolving ad tech trends with client needs, and contributing to the continuous enhancement of MiQ's product suite.

Programmatic Executive

Dentsu Digital

July 2023 – August 2025

London, United Kingdom

- Spearheaded advanced troubleshooting of programmatic campaign issues across Google DV360 and Adobe Advertising Cloud, diagnosing misconfigurations and identifying platform bugs to ensure seamless delivery and client satisfaction.
- Delivered an 80% uplift in ROAS for lower-funnel campaigns through rigorous A/B testing and data-led creative optimisation strategies.
- Partnered with engineering and internal trading teams to translate operational challenges into automation features and platform improvements.
- Designed and deployed automated performance dashboards using Google Apps Script, reducing manual reporting effort by 70% and enhancing data accuracy.
- Mentored junior analysts and associates, fostering upskilling in platform usage, campaign QA, and troubleshooting best practices.
- Acted as a key stakeholder in weekly strategic calls with clients, translating campaign performance into actionable business insights.

Programmatic Display Junior Associate 2023

Dentsu Digital

July 2022 – June

London, United Kingdom

- Diagnosed technical issues in campaign execution by analysing performance data and investigating logs and platform signals in DV360 and Adobe Advertising Cloud.
- Built a custom PowerShell automation bot for asset QC and campaign trafficking, cutting manual effort by 90% and ensuring zero-error execution.
- Analysed campaign data using SQL and Excel to uncover inefficiencies and data discrepancies for optimisation.
- Created documentation and QA checklists to train new hires and improve campaign setup accuracy.

Software Engineer

Deloitte Advisory (US Offices of India)

June 2018 – June 2020

Hyderabad, India

- Developed automation frameworks, reducing onboarding workload by 70-80% through PowerShell, ExtJS, and SQL Server automation.

- Won the Deloitte Innovation Award for an in-house application that saved >15 hours/week per user through process automation.
- Led the technical triage enterprise-level financial tools, collaborating directly with product owners in the US to resolve defects.
- Built a recruitment analytics dashboard in Excel + Power BI, accelerating decision-making for campus hiring.
- Spearheaded the technology committee for Deloitte's employee engagement, organizing cultural and sporting events, and leading strategic planning and budgeting efforts.

Intern

January 2018 – May 2018

Deloitte Advisory (US Offices of India)

Hyderabad, India

- Developer for Solvas Portfolio, a FinTech solution, improving code stability and performance through debugging and optimization.
- Collaborated on a blockchain-based solution to tackle insurance fraud, leading to the successful demonstration and validation of the concept by senior leadership.

EDUCATION

Loughborough University

September 2020 – September 2021

Master of Science, Sport Management

Loughborough, United Kingdom

- Passed with merit (2:1 degree)
- Course representative:
 - Act as a liaison between students and staff regarding academic matters.
 - Attend Student-Staff Liaison Committee meetings within the school.
 - Celebrate positive changes and keep students informed of changes and developments.
